

DRUMMED WASTE HANDLING

Safety, Knowledge and Experience — The GFL Advantage

At GFL, we proudly provide our customers with accessible, cost-effective, environmentally-responsible waste handling solutions. Using safe, reliable processes, we are equipped to address practically any environmental waste management challenge, simple or complex, in a broad range of industries.

With a dedication to customer service and an unwavering focus on health, safety, and environmental excellence, we work to minimize waste and maximize recovery of valuable industrial by-products in our facilities and on customer sites.

CUSTOMER LIABILITY MANAGEMENT

Customer Liability Management is fundamental to our service. Our systems, processes and training are designed to ensure compliance with all regulations, including TDG (Transportation of Dangerous Goods).

SERVICES TO SUIT YOUR NEEDS

GFL offers comprehensive packaged waste service for virtually any industry. We provide sampling and analysis, profiling, classification, packaging, labelling, pick-up and transportation, and recycling and disposal. We also provide documentation including manifests and/or bills of lading to ensure compliance with TDG regulations.

We manage packaged wastes from our customers' sites including lab packs, pails, drums, super-sacks, totes, bins, tub-skids, gaylord boxes, and pallets. We are permitted to handle a variety of waste stream classifications such as:

- Class 2
- Class 3
- Class 4 (4.1, 4.2, 4.3)
- Class 5 (5.1, 5.2)
- Class 6.1
- Class 8
- Class 9 including PCB, BCHW (oil, antifreeze), marine pollutants and non-regulated materials
- Non-regulated waste

RECOVERING VALUE AND REDUCING COSTS

We aim to recover valuable resources and reduce the overall volume of waste for end disposal, minimizing liability and costs for our customers. Many recovered by-products such as oil, solvents, glycols, paints, and chemicals can be recycled into new products or reused as a replacement for virgin materials.

DID YOU KNOW?

- We customize treatment programs to meet the liability and cost objectives of individual customers, including multiple end disposal options
- We offer custom packaging options (including colours), customized summary reporting and field-level training for safe waste handling
- We provide service on a schedule to suit your needs, on a regular or as-needed basis
