

SUPPLIER SELF REGISTRATION

All Suppliers who are interested in doing business with GFL need to register with our self-service Supplier Onboarding tool through NAVEX and complete the **Supplier Onboarding Assessment**. The assessment is comprised of questions designed to help GFL get to know potential Suppliers and the products/services they offer.

To create a profile and access the assessment, please use the following steps:

1. Navigate to <https://gflenv.navexone.com/assessments> and **Create an Account**. You will receive an automated email from NAVEX with a link to complete registration once you submit your account setup information.
2. When logging in for the first time, you will be taken to the **Assessment Selection Screen**. Complete the required information and click **“Begin”** on the Supplier Onboarding Assessment.

The screenshot shows the 'Assessment Selection' screen. At the top left is the GFL logo. The title is 'Assessment Selection' with a subtitle: 'Select an assessment form that most closely matches the entity you are submitting for review.' Below this, there are three main sections:

- Legal Entity Name:** A text input field with the label 'Please enter the legal entity name for which you will be completing an assessment. *'. The field contains 'Test Supplier Inc.' and is highlighted with a green border.
- Entity Type:** A section with the label 'Select an entity type for which you will be completing an assessment. *'. It contains two buttons: 'Organization' (with a building icon) and 'Person' (with a person icon). The 'Organization' button is highlighted with a green border.
- Supplier Onboarding Assessment:** A box containing the text: 'This assessment is designed to collect the information from suppliers interested in doing business with GFL.' Below this text is a blue 'Begin' button, which is pointed to by a green arrow.

Once a Supplier has registered and completed the initial Supplier Onboarding Assessment, no additional actions are required. If your product/service offerings meet a need a GFL, a member of the Procurement team will reach out.
